

# DECKMATE - CLEANING PRODUCTS

## CLEANING SIMPLIFIED

The Deck Mate system has been developed to make cleaning your vessel simpler, quicker and easier.

The focus is to provide a professional grade cleaning system to make detailing easy, effective and finish friendly.

Quality and performance is a top priority but it also has to be affordable. Each tool in the system is designed by professional detailers to make the cleaning process fast and simple.

In the Deck Mate system, every quick release tool locks positively onto the handle.

The telescoping handles extend with the same quick release system for a positive lock.

The Deck Mate system features premium quality brushes, micro fiber, accessories and super absorbent drying products to ensure you'll spend less time cleaning.

Deck Mate is Cleaning. Simplified.
