## Epifab Dynel Cloth

1 metre wide

## Fibreglass Metal Roller

Quality metal roller for wetting out fibreglass.

8MM X 50MM Roller

## F/Glass Repair Kit

Contains 250g Resin,  
10Mls Hardener,  
1 Paint Brush,  
filler powder, 3 mixing  
sticks, 1MF/G Mat,  
250mls Acetone  
and instructions.

## Clear Casting Resin

Use for embedding objects and when clear finish is required.

Small surfboard repairs etc.

## R180 Epoxy Resin

R180 Epoxy Resin is a low viscosity epoxy system especially developed for the production of articles where thin film cure is of particular importance making it ideal for a variety of uses. A choice of fast or slow hardeners Available in the following sizes

Epoxy Resin 1lt - Hardener slow 200ml

Hardener fast 200ml

Epoxy Resin 4lt - Hardener slow 800ml

Hardener fast 800ml

Epoxy Resin 20lt - Hardener slow 4lt

Hardener fast 4lt

## TR Mould Release

Made with the highest quality refined Carnauda wax. Provides high gloss, ease of application and excellent release 500 grams

## PVA Mould Release

PVA Mould Release Agent can be wiped, sponged or sprayed onto a wide range of pattern and mould surfaces.

Available in the following sizes

100g

500G

1KG

4KG

## Catalyst Measuring Cup

Makes measuring of catalyst a little easier. Available in the following sizes

30ml

60ml

## Calibrated Mixing Cups

Handy mixing cups

375 ML Cup

750 ML Cup

## Wooden Mixing Sticks

Ideal for those small jobs 10 to packet

## Disposable Paint Brushes
