

Marine Plumbing & Hose Fitting

Accessories

The slip-on Collet Cover shown in the illustration prevents accidental removal or tampering with tubing.

Tubing can be inserted with the Collet Cover already attached to the fittings or the cover can slide into position afterwards.

The cover is easily removed when required and comes in a variety of colours for colour coding.

Colours available - Suffix indicates colours

E = Black

Y = Yellow

B = Blue

R = Red

S = Grey

G = Green

LLDPE Tubing

The John Guest PE Range of plastic tubing is produced in Linear Low Density Polyethylene for cold and intermittent hot water applications.

Our tubing provides the benefits of a wide range of temperature and pressure suitability, broad chemical compatibility and is made from non contaminating materials. Common applications are in water purification, water conditioners, ice makers and misting systems. LLDPE is more robust than traditional low or medium density polyethylene and is recommended for use with cold and intermittent hot water. Our tubing is made from FDA compliant materials and is NSF International certified. John Guest LLDPE Tubing provides excellent resistance to environmental stress cracking as measured by ASTM D-1693 (10% IGEPAL).

John Guest Polyethylene tubing is designed for use with John Guest Super Speedfit push-in fittings, John Guest Shut-Off Valves and virtually all standard tubing connectors.
