

## RC 5000 HOSE REELS

The **RC 5000** has been developed to cater for the needs of Australians who enjoy getting out on the water and need to clean their boats.

Permanantly installed or retrofitted the **RC 5000** makes life a little easier when you are on the water, at home, or cleaning up after a trip. Its unique design allows you to pull out and use just the length of hose you require, and auto retraction save you time when you're done.
